TROUBLE AT AN INDIAN AGENCY.—In a letter received from Asa M. Janney, United States Indian agent at Santee Agency, Nebraska, that officer writes as tollows:—"A terrible event occurred at the Agency this morning. Alexander Cook, the head workman at the mill that is being built, complained that an Indian named Moses Goodteacher, who was at work on the foundation of the mill, did not throw the earth as far at one time as he ought to. The distance being fifteen feet, the Indian said he could not do it, but that he would throw it from the pit to the first bench, being about half the distance, and from thence to the surface. Cook said if he did not obey him he would kill him, to which the Indian replied, 'Shoot me if you want to,' and seated himself upon a stone. Cook proceeded to a house about one hundred and fitty yards distant, procured a gun, and upon coming up to the Indian deliberately shot him through the head, without any further provocation. Three Indians who were at work on the mill saw him reloading his gun, when they wrenched it from him and broke it over his head, causing numerous fractures and instant death." The three Indians have been arrested, and the Commissioner of Indian Affairs has ordered that they have counsel when their cases are tried.

NAPOLEON IN PRIVATE LIFE. - His intimate friends, his confidential servants, tell us in their memoirs that Napoleon had in private life tyrappical habits, such as no man should have submitted to who respected himself. He would pull the ears of his friends till they hied profusely; tap them on the cheeks, and pinch them like little children; and sometimes even sit down on their knees. Such acts of condescension betokened with him a special liking, and men of the highest rank were proud and happy to receive such favors .- Lippincott's

TAKE PARTICULAR NOTICE

Dr. J. addresses all those who have injured themselves by improper indulgence and solitary habits, which ruin both body and mind, unfitting them for either busines, study, society or

marriago. These are some of the sad and melancholy effects produced by the early habits of youth, viz. Weakness of the flack and Limbs, Pains in the Head, Dinness of Sight, Loss of Mus- 5:10 a.m. ular l'ower, Palpitation of the Heart, Dyspep. sin, Nervous Irritability, Derangement of the Digestive Functions, General Debility, Symp-

Thousands of persons of all ages can now judge what is the cause of their declining health, losing their vigor, becoming weak, pale, nervous and emaciated, having a singular appearance about the eyes, cough and symptoms of Consumption.

YOUNG MEN

Who have injured themselves by a certain practice, already described, a habit frequently learned from evil companions or at school, the effects of which are nightly felt, even when asleep, and if not cured, render marriage impossible, and destroys both mine and body, should apply immediately.

What a pity that a young man, the hope of his country, the pride of his parents, should

be snatched from all prospects and enjoyment of life by the consequence of deviating from the path of nature, and indulging in pernicious habits. Such persons must, before contemplating

MARRIAGE,

DISEASE OF IMPRUDENCE. When the misguided and imprudent votary of pleasure finds that he has imbibed the seeds of this painful disease, it too often happens that an ill-timed sense of shame or dread of discovery deters him from applying to those who, from education and respectability, can alone befriend him, delaying till the constitutional symptoms of this horrid disease make their appearance, such as ulcerated sore throat, diseased nose, nocturnal pains in the head and limbs, dimness of sight, deafness, nodes of the skin bones and arms, blotches on the head, face and extremities, progressing with fright ful rapidity, till at last the palate of the mouth or the bones of the nose fall in, and the victim

his dreadful suffering, by sending him to that undiscovered country "from whence no traveller returns." It is a melancholy fact that thousands DIE victims to this terrible disease, through falling into the hands of ignorant or unskilful PPE-TENDERS, who, by the use of that deadly Poison, Mercury, &c., destroy the constitution, and incapable of curing, keep the unhappy sufferer month after month taking their noxious or injurious compounds, and instead of being restored to a renewal of Life Vigor and Hanni restored to a renewal of Life, Vigor and Happi-ness, in despair leave him with ruined Health

of commiseration till death puts a period to

to sigh over his galling disappointment. To such, therefore, Dr. Johnson pledges himself to preserve the most Inviolable Secrecy, and from his extensive practice and observations in the great hospitals of Europe, and the first in this country, viz: England, France, Philadelphia and elsewhere, is enabled to offer the most Certain, Speedy and Effectual Remedy in the World for all Diseases of Imprudence.
